BEGINNING MIDDLE & END

BEGINNING MIDDLE & END

Art galleries
are more than
just places

to drape pictures or
put objects, they can
be laboratories for
experimenting with time,

process, and audience interaction. *Beginning Middle and End* is an opportunity for students, lecturers and national and international artists to work together and occupy the School of Art Gallery with time-based art. It will focus on a series of performance, screen, and sound events, which are listed here, while between times changing and evolving installations and exhibitions will be available for viewing. Experimental art works in all kinds of media will be welcome, as long as they have a beginning, a middle, and an end.

BEGINNING

3-12 SEPTEMBER
VIDEO | INSTALLATION | OBJECTS
